

Regulation 637 Compliance Assistance Meetings

In an effort to communicate amendments to Regulation 637, the Michigan Department of Agriculture (MDA) will be participating in several meetings and training opportunities to review the amendments and answer questions. If your industry or association is sponsoring a training event and would like a representative from MDA to participate, please contact your local MDA regional office. A map of the regional office locations and contact information is available by clicking [here](#). MDA has scheduled the following dates and locations for training events open to pesticide applicators, MSU extension staff and any person affected by changes to the regulation. Please call the contact person identified for each training program to reserve a seat (seating is limited). As additional MDA meetings are scheduled they will be posted on this site.
